

Solar container communication station power outage

Overview

What is a container electrical system?

The system integrates energy storage converters, energy storage batteries, isolation transformers, cooling, fire protection, power distribution, power&e. Elecod Alice Series Container Electrical System is specifically designed for applications like ground-mounted energy storage power stations or commercial and industrial power stations.

What is photovoltaic & energy storage & EV charging mode?

This solution is designed to meet the development needs of renewable energy and new energy vehicles, that is, photovoltaic + energy storage + EV charging mode, using photovoltaic power generation to provide green and clean electricity for power stations and car owners.

How a photovoltaic power storage system works?

By stores photovoltaic power in batteries directly and discharges it to the load at night, It has pretty of advantages in solving the consumption problem, including smoothing the load for users and reducing electricity costs. This solution uses 5 sets of modular outdoor cabinet energy storage system, which supports up to 15 units in parallel.

What is a Modular outdoor Cabinet energy storage system?

This solution uses 5 sets of 100kW/215kWh modular outdoor cabinet energy storage system, which support up to 15 units in parallel. It's an ideal choice for application scenarios such as factories, residential areas, shopping centers, hospitals, and hotels. The solution is specially designed to solve the problem of photovoltaic consumption.
