

Solar container outdoor power Ranking in Zurich Switzerland

Overview

What is the future of solar energy in Switzerland?

Solar PV power had the dominant share in the total renewable power installed capacity of Switzerland. This share is expected to further increase by 2030. Electricity Generation in Solar Energy market is projected to amount to 2.00bn KWh in 2023.

What is solar & storage live Zurich?

We're excited to announce the launch of Solar & Storage Live Zurich! Due to the increased demand in Europe, we decided it's time to create another forward-thinking, challenging and exciting renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more decentralised energy system.

How much solar energy does Switzerland use in 2022?

Solar energy production accounted for 6.76% of Switzerland's electricity consumption in 2022 (4.89% in 2020). This year, solar energy will cover more than 8% of demand. The number of new storage batteries installed more than doubled compared with the previous year. The average storage capacity rose sharply from 12 to almost 15 kWh.

Who surveys the solar market in Switzerland?

The Swiss Federal Office of Energy has been surveying the solar market in Switzerland for more than 20 years. Due to this long experience the quality of the data has been maintained, thanks as well to all the installers and distributors who are willing to complete the annual questionnaire.
