

Solar glass for the entire office building in Marseille

Overview

Are solar glass panels a good choice for building design?

Solar glass panels offer a seamless and aesthetically pleasing way to integrate solar energy into building design. They can replace traditional windows or be incorporated into curtain walls, skylights, and facades, making them an attractive choice for architects and homeowners looking to enhance the visual appeal of their structures.

Can solarvolt TM BIPV glass be used with spandrel glass?

In addition to power generation, Solarvolt TM BIPV glass systems also reduce air conditioning costs. To meet your design and environmental performance objectives, Solarvolt TM BIPV glass can be used with spandrel glass, as well as any Vitro low-emissivity (low-e) coating and glass substrate, including tinted glass.

Who is vitro architectural glass?

EXPLORE DESIGN OPTIONS WATCH OUR VIDEO To realize this offering, Vitro Architectural Glass acquired assets from solarnova: a proven, Germany-based manufacturer of BIPV glass with successful commercial installations throughout Europe and North America.
