

# **Solar power station for sale in Mexico**

## Overview

---

How much does solar energy cost in Mexico?

The solar energy market in Mexico is burgeoning, with significant investments enhancing its infrastructure. According to Mordor Intelligence, the average levelized cost of electricity (LCOE) for utility-scale solar photovoltaic (PV) projects is approximately USD \$0.049 per kWh, making it a competitive alternative to traditional energy sources.

Does Mexico have a solar market?

Mexico's solar market has experienced remarkable growth in recent years, becoming one of Latin America's most promising renewable energy destinations. With abundant solar resources and supportive government policies, the country attracted over \$6 billion in investments between 2023-2024.

Who manufactures solar panels in Mexico?

2. Maxeon Solar Technologies (Singapore/USA) With 93% of Mexico's module production capacity, Maxeon continues to expand its manufacturing presence in the country. Their premium Interdigitated Back Contact (IBC) technology commands premium prices in the commercial and residential segments.

Is solar power a good investment in Mexico?

The trend of solar power is growing rapidly in Mexico and it is considered to have an enormous economic potential. In 2016, México was Latin America's 2nd largest generator of solar energy, with 180 megawatts of total capacity share and numerous projects under process to add more capacity of at least 500 megawatts.
