

Solar system glow

Overview

What is the source of the eerie glow around the solar system?

The solar system is surrounded by an eerie ghostly glow that persists after all known light sources are accounted for, according to new research from the Hubble Space Telescope.

What is a ghostly glow?

The solar system is surrounded by an eerie ghostly glow that persists after all known light sources are accounted for, according to new research from the Hubble Space Telescope. This glow is equivalent to the glow of 10 fireflies spread across the entire night sky.

Why does a star glow?

The glow is explained by sunlight reflecting from this shell. “The possibility that I think is most likely is that it comes from dust left behind from comets in the solar system,” Carleton said.

What causes a spooky solar system glow?

The team may have been surprised by this spooky solar system glow, but they have a few ideas about its origins. One potential source for the SKYSURF glow is a shell of dust left within the inner solar system by comets falling into the solar system from random directions. The glow is explained by sunlight reflecting from this shell.

Solar system glow

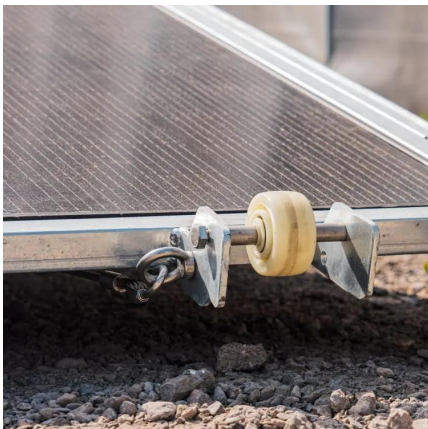

[Hubble Detects Ghostly Glow Surrounding Our Solar System](#)

Dec 8, 2022 · This artist's illustration shows the location and size of a hypothetical cloud of dust surrounding our solar system. Astronomers searched through 200,000 images and made tens ...

[Hubble Detects Ghostly Glow Surrounding ...](#)

Dec 8, 2022 · This artist's illustration shows the location and size of a hypothetical cloud of dust surrounding our solar system. Astronomers ...

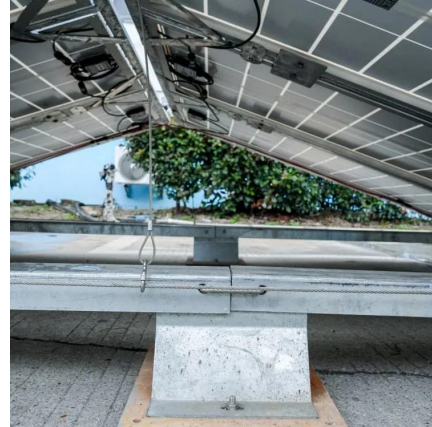

[Hubble Space Telescope spots eerie glow ...](#)

Dec 9, 2022 · Astronomers used 200,000 Hubble Space Telescope images to discover an eerie glow surrounding the solar system even after all other ...

[Hubble Detects Ghostly Glow Surrounding ...](#)

Dec 8, 2022 · A survey of the residual light in the night sky has uncovered an eerie, omnipresent glow spread throughout the Solar System, thought to ...

Hubble Detects Mysterious Ghostly Glow Surrounding Our Solar System

Dec 10, 2022 · Hubble Space Telescope Detects Ghostly Glow Surrounding Our Solar System
Aside from a tapestry of glittering stars, and the glow of the waxing and waning Moon, the ...

[Astronomers detect a mysterious glow ...](#)

Dec 19, 2022 · At present, it's unclear where this residual glow is coming from, but astronomers have an idea. As comets enter the inner solar ...

[Unexplainable 'ghostly glow' surrounding the ...](#)

Dec 12, 2022 · GREENBELT, Md. -- NASA astronomers have discovered a "ghostly glow" around our solar system that has nothing to do with ...

[Astronomers Say Our Solar System Has a Mysterious 'Ghostly' Glow](#)

Feb 9, 2023 · The solar system's "ghostly glow" is unexplainable... for now One potential source for the SKYSURF glow is a shell of dust left within the inner solar system by comets falling into ...

Hubble Space Telescope spots eerie glow around the solar system ...

Dec 9, 2022 · Astronomers used 200,000 Hubble Space Telescope images to discover an eerie glow surrounding the solar system even after all other light sources have been eliminated.

[Hubble Detects Ghostly Glow Surrounding Our Solar System](#)

Dec 8, 2022 · A survey of the residual light in the night sky has uncovered an eerie, omnipresent glow spread throughout the Solar System, thought to be caused by sunlight reflected from ...

[Astronomers Spot Mysterious Ghostly Light ...](#)

Dec 13, 2022 · The team harvested data from the images and then subtracted the glow from planets, stars, galaxies and even ethereal ...

[Astronomers Detect Residual Glow around ...](#)

Dec 8, 2022 · Astronomers with the SKYSURF project have searched through 200,000 archival Hubble images to look for any residual ...

[Hubble Detects Mysterious Ghostly Glow ...](#)

Dec 10, 2022 · Hubble Space Telescope Detects Ghostly Glow Surrounding Our Solar System
Aside from a tapestry of glittering stars, and the glow of ...

[Unexplainable 'ghostly glow' surrounding the solar system ...](#)

Dec 12, 2022 · GREENBELT, Md. -- NASA astronomers have discovered a "ghostly glow" around our solar system that has nothing to do with twinkling stars or moonlight. Using over 200,000 ...

[A Ghostly Glow of Light Surrounds The Solar System, And ...](#)

Dec 9, 2022 · A dust component to the Solar System that we haven't yet directly detected: tiny particles of dust and ice from a population of comets traveling inwards from the dark reaches ...

[Astronomers Say Our Solar System Has a ...](#)

Feb 9, 2023 · The solar system's "ghostly glow" is unexplainable... for now One potential source for the SKYSURF glow is a shell of dust left within ...

Astronomers Spot Mysterious Ghostly Light Glowing Throughout Solar System

Dec 13, 2022 · The team harvested data from the images and then subtracted the glow from planets, stars, galaxies and even ethereal zodiacal light, which is light reflecting off dust within ...

[Astronomers Detect Residual Glow around Our Solar System](#)

Dec 8, 2022 · Astronomers with the SKYSURF project have searched through 200,000 archival Hubble images to look for any residual background glow in the sky.

[Astronomers detect a mysterious glow around the solar system](#)

Dec 19, 2022 · At present, it's unclear where this residual glow is coming from, but astronomers have an idea. As comets enter the inner solar system, following their orbit toward closest ...

[A Ghostly Glow of Light Surrounds The Solar ...](#)

Dec 9, 2022 · A dust component to the Solar System that we haven't yet directly detected: tiny particles of dust and ice from a population of ...
