

Tax points for energy storage equipment

Overview

Are IRA tax benefits a viable option for energy storage facilities?

While the vitality of the IRA tax benefits in their current form is currently subject to uncertainty given the results of the 2024 federal general election, the existing market practice for financing energy storage facilities since the IRA's passage continues to evolve in reaction to the act's new requirements and opportunities.

Who can install energy-generation & storage property?

Tax-exempt and governmental entities, such as state and local governments, Tribes, religious organizations, and non-profits may install energy-generation and storage property to meet energy demands, reach clean energy transition goals, or save money on energy costs.

What is the base tax credit for energy projects?

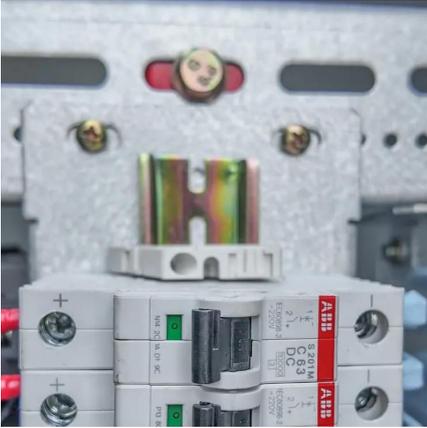

- For projects beginning construction on or after Jan. 29, 2023 or where the maximum net output is 1 MW or greater, the base tax credit is 6% of the taxpayer's basis in the energy property or qualified facility (or energy storage technology).

How has the energy storage industry progressed in 2024 & 2025?

The energy storage industry has continued to progress over the course of 2024 and into 2025, buoyed in significant part by the federal income tax benefits in the form of tax credits enacted under the Inflation Reduction Act of 2022 (IRA).
