Vietnam Power and Signal Base Station

Overview

Who regulates electricity in Vietnam?

The Directorate General of Electricity and Renewable Energy (EREA), under the MOIT, is responsible for overall energy planning and policy. The Electricity Regulatory Authority of Vietnam (ERAV), which is responsible for establishing and supervising the power market, power planning, tariff regulation and licensing.

Is Vietnam a good place to buy electricity?

Electric power represents one of the most promising areas for U.S. commercial prospects in Vietnam, but also the most challenging. Vietnam Electricity (EVN), a state-owned enterprise that reports directly to the Prime Minister, is the largest buyer of electricity, and holds a monopoly on transmission and distribution.

Who inspected the construction site of the power supply in Vietnam?

On 15 July 2025, Vice President of Vietnam Electricity (EVN) Nguyen Tai Anh and the delegation inspected the construction site of the power supply. No. Publishing license: 1908/GP-TTĐT By Ha Noi Department of Information and Communications on May 15, 2018. Address: No. 11 Cua Bac Street, Ba Dinh Ward, Ha Noi.

Will natural gas be a key source of power in Vietnam?

Natural gas will also remain a key source of power generation for Vietnam at seven GW in 2020 increasing to 13.5 GW in 2025 and 28-33 GW in 2030, bringing it from 15% in 2020 to 21-23% in 2030 with a more substantial growth as more LNG terminals enter operation.
