

Vietnam Smart Photovoltaic Energy Storage Container 5MW

Overview

Why should Vietnam invest in a lithium battery?

The declining cost of lithium battery cells, coupled with technological advancements, has made BESS increasingly affordable and accessible, according to Contemporary Amperex Technology, the world's largest battery manufacturer. Vietnam should capitalise on this trend to attract investment, create green jobs, and enhance energy security.

Will Chinese battery manufacturer sunwoda invest \$300 million in Bac Giang?

Chinese battery manufacturer Sunwoda plans to make an additional \$300 million investment in the northern province of Bac Giang. As renewable energy becomes a cornerstone of Vietnam's climate and development strategies, the need to meet the country's rapidly growing power demand becomes more urgent.

How can Bess help Vietnam achieve energy security & sustainability?

As Vietnam charts its path towards energy security and sustainability, the integration of BESS emerges as a critical enabler of this transition. By embracing BESS, Vietnam has the potential to lead the way in clean energy innovation, fuelling economic growth while safeguarding the planet for future generations.

Is Vietnam ready for a 300MW Bess target?

While Vietnam has taken initial steps by including a 300MW BESS target in the PDP8, more ambitious action is needed. The declining cost of lithium battery cells, coupled with technological advancements, has made BESS increasingly affordable and accessible, according to Contemporary Amperex Technology, the world's largest battery manufacturer.
