

Vilnius wind solar container energy storage system manufacturer

Overview

What is the largest 'private' Bess project in Lithuania?

IPP E energija Group has started building what it claims is the largest 'private' BESS project in Lithuania, a few weeks after the Baltic region decoupled from Russia's electricity grid. The 120MWh battery energy storage system (BESS) project near Vilnius, the capital of Lithuania, will come online by the end of 2025.

Why is Vilnius Bess important?

Vilnius BESS facility will be able to supply all balancing services (FCR, aFRR, and mFRR) required by the grid and provide grid forming functions. The development of such energy storage projects will enhance the stability of the electricity grid, which is vital for the energy independence of the Baltic states.

What is Lithuania's largest battery storage facility?

This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%. The project is located near Vilnius and will be operational by the end of 2025.

What is Lithuania's first commercial battery storage facility?

Lithuania's first commercial battery storage facility will feature a 120 MWh capacity smart battery storage system. This project will become Lithuania's largest battery storage facility that is privately owned, boosting the country's total storage capacity by approximately 50%.
