

Warranty for High-Voltage Mobile Energy Storage Containers

Overview

What is the warranty on a battery system?

Battery Systems come with 5000 cycle warranty and up to 80% DOD (Depth of Discharge) @ 0.5 at 25°C. These AC coupled systems offer commercial customers turn key energy storage solutions that are designed for 5 to 10+ years of hassle free energy storage and usage.

What voltages are available for a battery energy storage system?

All system systems are offered with either 400VAC or 480VAC 3 phase interconnect voltages. Each commercial and industrial battery energy storage system includes Lithium Iron Phosphate (LiFePO₄) battery packs connected in high voltage DC configurations.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS);.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.
