# Which battery cabinets are more common in New Zealand

## Overview

---

Why should you use a lithium battery storage cabinet?

Lithium-ion batteries power everything from tools to marine equipment across New Zealand's workplaces. When these batteries fail, thermal runaway can cause fires, toxic gases, and costly damage. Our lithium battery storage cabinets provide secure storage and controlled charging without breaking your budget.

What is a lithium battery cabinet?

A lithium battery cabinet provides the protection WorkSafe NZ's requirements demand, whether you need simple storage for spare batteries or a complete charging station for your fleet of power tools. With our robust and thoughtful tray designs, you can keep your team safe and operations running smoothly.

Why do you need a lithium-ion battery charging cabinet?

A dedicated lithium-ion battery charging cabinet provides fire-resistant containment, proper ventilation, and emergency isolation that ordinary storage cabinets can't. Proper storage demonstrates your commitment to creating a safe work environment and protects you from liability.

How many lithium ion batteries can a storemasta Battery Cabinet charge?

A Storemasta lithium-ion battery cabinet can simultaneously charge multiple workplace batteries in a safe and protected environment. Storemasta offers an 8 and 18 outlet model of battery cabinet, which allows the user to charge up to 8 or 18 li-ion batteries – depending on the chosen model.
