

# **Which is the largest energy storage power station in New Zealand**

## Overview

---

Where is the largest thermal power station in New Zealand?

The Huntly Power Station, New Zealand's largest thermal power station. Image: Saft. Saft, a subsidiary of French energy giant TotalEnergies, will provide Genesis Energy in New Zealand with a 100MW/200MWh utility-scale battery energy storage system (BESS).

Is New Zealand's first large-scale grid battery storage system complete?

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakākā Battery Energy Storage System (BESS) being officially opened in a ceremony later today.

When will New Zealand's energy storage project come online?

The energy storage project is expected to come online during the July-to-September period of 2026. Saft described the Huntly Power Station as "the single largest electricity generation site in New Zealand." New Zealand welcomed its first utility-scale battery energy storage system earlier this year.

What is the largest power station in New Zealand?

Huntly Power Station is the largest thermal power station in New Zealand, with a generation capacity of 1,200MW, making it the country's single largest electricity generation site. According to Saft, the power station plays an important role in the country's electricity market.
